### MEDICETICS

Husband and wife team Dr Geoffrey Mullan and Dr Vicky Dondos are responsible for some artfully done injectables at this spick-and-span Connaught Street clinic. But it's also where you should come for a deep-cleaning hydrfacial, or some pore-minimising Laser Genesis (a warm laser that heats the topmost layer of skin, to resurface with minimal downtime) and emergency spot nuking (a swift steroid injection to the offending pimple does away with redness and inflammation in less than 48 hours). Country-dwellers can catch them at Barnsley House in Cirencester.
